JOURNAL OF PATHOLOGY, VOLUME 132

INDEX OF SUBJECTS

PAGE

ALLOGRAFTS, muscle, in mice: an isoenzyme study 325
AMYLOID in murine and human secondary amyloidosis demonstrated by the immunoperoxidase technique . . 343
ANGIOGENESIS, mechanism of induction by human neoplastic lymphoid tissue: studies employing bovine aortic endothelial cells *in vitro* 207
mechanism of induction by human neoplastic lymphoid tissue: studies of the chorioallantoic membrane (CAM) of the chick embryo 191
AORTIC ENDOTHELIUM, BOVINE, subcultures of cells used for in-vitro assay for induction of angiogenesis . . . 207
AUTORADIOGRAPHY, techniques for investigating the origin, nature and behaviour of mesothelial cells . . . 263

B.C.G., lysozyme production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105
BLOOD, lysozyme from granulomas . . 105
BLOOD COAGULATION, histological and ultrastructural changes following carrageenan injection in the mouse . 63
BONE, diphosphonates inhibit bone resorption by macrophages *in vitro* . . 255
BOOKS RECEIVED . . . . . .
Howard Florey: the making of a great scientist, by Macfarlane, Gwyn (O.U.P) 92
Principles and practice of infectious diseases, edited by Mandell, G. L., Douglas, R. G. Jr. and Bennett, J. E. (Wiley Medical) 93
Pathology Annual 1978. Part I, edited by Sommers, S. C. and Rosen, P. P. (Prentice/Hall) 94
Kidney disease: present status, edited by Churg, J., Spargo, B. H., Mostofi, F. K. and Abell, M. R. (Williams & Wilkins) 94
BRAIN, histopathology of acute cell loss in Huntington's chorea 55
BRONCHIAL EPITHELIUM, effect of indomethacin on the response to tobacco smoke 1

PAGE

CARCINOMA, lymphatic metastasis: invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat . . 287
CARRAGEENAN-induced granuloma in the rat lung: histological study . . . 243
injection in the mouse; histological and ultrastructural changes . . . 63
CARTILAGE, degenerative changes in the cervical spine and their relationship to its mobility 133
hypertrophy and laminar calcification of cartilage in loose bodies as probable evidence of an ossification abnormality 161
scanning electron microscopic study of fine structure of artificial splits in femoral condylar cartilage of the rat . 169
CEREBELLUM, primary rhabdomyosarcoma 235
CERVICAL SPINE, degenerative changes and their relationship to mobility . . 133
CHICK EMBRYO chorioallantoic membrane (CAM) used for the study of mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue . 191
CHOREA, histopathology of acute cell loss in Huntington's chorea brain 55
CHORIOALLANTOIC MEMBRANE of the chick embryo used for the study of the mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue 191
CRYPTOSPORIDIOSIS in man: parasite life cycle and fine structural pathology . 217

DENTAL PULP, altered vascular permeability in the dental pulp of traumatised rat teeth 181
DIPHOSPHONATES inhibit bone resorption by macrophages *in vitro* 255
DISCS, INTERVERTEBRAL, degenerative changes in the cervical spine and their relationship to its mobility . . . 133
neuropathology following removal for low-back pain 95
DISSEMINATED INTRAVASCULAR COAGULATION, histological and ultrastructural changes following carrageenan injection in the mouse 63
DUTCHER–FAHEY INCLUSIONS in a case of Waldenström's, macroglobulinaemia: immunohistochemical staining . . 81

PAGE

ELECTRON MICROSCOPY, SCANNING, artificial splits in femoral condylar cartilage of the rat 169
cryptosporidiosis in man: parasite life cycle 217
ELECTRON MICROSCOPY, TRANSMISSION, cryptosporidiosis in man: parasite life cycle 217
effects of sex hormones and infection on lymph node post-capillary venules . 121
histological and ultrastructural changes following carrageenan injection in the mouse 63
hypothyroid myopathy: clinical and pathological study 35
lymphatic metastasis: invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma . 287
lysozyme production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105
mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue: studies employing bovine aortic endothelial cells *in vitro* . . . 207
mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue: studies on the chorioallantoic membrane (CAM) of the chick embryo 191
parathyroid in chronic renal failure . . 307
primary rhabdomyosarcoma of the cerebellum 235
ENDOCRINES, light and electron microscopical study of parathyroid in chronic renal failure 307

GRANULOMA, carrageenan-induced in the rat lung: histological study . . . 243
inflammatory response to lymph node cells from adjuvant-diseased rats: late changes in local and systemic leucocyte counts in the Wistar strain . . 11
lysozyme production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105
GUINEA PIG, accumulation of T cells and local anti-PPD antibody production in lymphokine-mediated chronic peritoneal inflammation 23

HISTOCHEMISTRY, contribution of exogenous cells to regenerating skeletal muscle: study of muscle allografts in mice 325
resting mesothelial cells 273
HUNTINGTON'S CHOREA brain: histopathology of acute cell loss . . . 55

PAGE

IMMUNOHISTOCHEMISTRY, demonstration of amyloid in murine and human secondary amyloidosis 343
Dutcher–Fahey intranuclear inclusion body in a case of Waldenström's macroglobulinaemia 81
lysozyme production by a granuloma *in vivo*: output in blood and lymph . . 105
IMPRINT MONOLAYERS, origin, nature and behaviour of mesothelial cells . . 263
resting mesothelial cells 273
INDOMETHACIN, effect on the response of bronchial epithelium to tobacco smoke 1
INFECTION, ultrastructural effects of sex hormones and infection on lymph node post-capillary venules 121
INFLAMMATION, accumulation of T cells and local anti-PPD antibody production in lymphokine-mediated chronic peritoneal inflammation in the guinea pig . 23
histological study of the carrageenan-induced granuloma in the rat lung . 243
response to lymph node cells from adjuvant-diseased rats: late changes in local and systemic leucocyte counts in the Wistar strain 11

KIDNEY, histopathological and ultrastructural changes following carrageenan injection in the mouse . . 63
parathyroid in chronic renal failure: light and electron microscopical study . 307

LEUCOCYTES, inflammatory response to lymph node cells from adjuvant-diseased rats: late changes in local and systemic leucocyte counts in the Wistar strain 11
LOOSE BODIES, hypertrophy and laminar calcification of cartilage in loose bodies as probable evidence of an ossification abnormality 161
LUNG, effect of indomethacin on the response of bronchial epithelium to tobacco smoke 1
histological study of the carrageenan-induced granuloma in the rat . . 243
LYMPH, invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma 287
lysozyme production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105
LYMPH NODE, inflammatory response to lymph node cells from adjuvant-diseased rats: late changes in local and systemic leucocyte counts in the Wistar strain 11

PAGE

mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue: studies employing bovine aortic endothelial cells *in vitro* . . . 207
mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue: studies on the chorioallantoic membrane (CAM) of the chick embryo 191
ultrastructural effects of sex hormones and infection on lymph node post-capillary venules 121
LYMPHOCYTES, accumulation of T cells and local anti-PPD antibody production in lymphokine-mediated chronic peritoneal inflammation in the guinea pig . 23
LYMPHOKINES, chronic peritoneal inflammation in the guinea pig: study of accumulation of T cells and local anti-PPD antibody production . . 23
LYMPHOMA, mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue: studies employing bovine aortic endothelial cells *in vitro* . 207
mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue: studies on the chorioallantoic membrane (CAM) of the chick embryo 191
LYSOZYME production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105

MACROGLOBULINAEMIA, Waldenström's: immunochemical staining of the Dutcher–Fahey intranuclear inclusion body 81
MACROPHAGES, diphosphonates inhibit bone resorption by 255
histological and ultrastructural changes following carrageenan injection in the mouse 63
histological study of the carrageenan-induced granuloma in the rat lung . 243
inflammatory response to lymph node cells from adjuvant-diseased rats: late changes in local and systemic leucocyte counts in the Wistar strain . . 11
lysozyme production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105
MESOTHELIUM, histochemical study of resting mesothelial cells 273
techniques for investigating the origin, nature and behaviour of mesothelial cells 263
MICE, contribution of exogenous cells to regenerating skeletal muscle: an isoenzyme study of muscle allografts . 325

PAGE

demonstration of amyloid in murine and human secondary amyloidosis by the immunoperoxidase technique . . 343
histological and ultrastructural changes following carrageenan injection . . 63
ultrastructural effects of sex hormones and infection on lymph node post-capillary venules 121
METASTASIS, invasion of lymphatic vessels and efflux to tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma 287
MONOLAYER SECTIONS, techniques for investigating the origin, nature and behaviour of mesothelial cells . . 263
MORPHOMETRY, ultrastructural effects of sex hormones and infection on lymph node post-capillary venules . . . 121
MUSCLE, contribution of exogenous cells to regenerating skeletal muscle: an isoenzyme study of muscle allografts in mice 325
MYOPATHY, hypothyroid: clinical and pathological study 35

OSSIFICATION abnormality: hypertrophy and laminar calcification of cartilage in loose bodies as probable evidence of an 161
OSTEOPHYTES, degenerative changes in the cervical spine and their relationship to its mobility 133

PARASITE life cycle and fine structural pathology in cryptosporidiosis in man . 217
PARATHYROID in chronic renal failure: light and electron microscopical study . 307
PERITONEUM, accumulation of T cells and local anti-PPD antibody production in lymphokine-mediated chronic inflammation in the guinea pig . . 23
PERMEABILITY, VASCULAR in the dental pulp of traumatised rat teeth . . . 181
PROTEOGLYCANS, fine structure of artificial splits in femoral condylar cartilage of the rat: scanning electron microscopic study 169

RATS, altered vascular permeability in the dental pulp of traumatised teeth . . 181
effect of indomethacin on the response of bronchial epithelium to tobacco smoke 1
fine structure of artificial splits in femoral condylar cartilage: scanning electron microscopic study 169
histochemical study of resting mesothelial cells 273
histological study of the carrageenan-induced granuloma in the lung . . 243

PAGE

inflammatory response to lymph node cells from adjuvant-diseased rats: late changes in local and systemic leucocyte counts in the Wistar strain . . 11
lymphatic metastasis: invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma . 287
lysozyme production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105
RENAL FAILURE, CHRONIC, light and electron microscopical study of the parathyroid 307
RHABDOMYOSARCOMA, primary, of the cerebellum 235

SEX HORMONES and infection: ultrastructural effects on lymph node postcapillary venules 121
SYNOPSES OF PAPERS—Pathological Society of Great Britain and Ireland, 141st meeting; 9–11 July 1980
Effect of soluble immune complexes on C2 synthesis by human monocytes, by A. R. McPhaden, D. Lappin and K. Whaley 349
Cyclic nucleotides modulate complement biosynthesis by monocytes, by D. Lappin and K. Whaley . . . 349
Factors involved in macrophage activation, by T. D. Brogan and Evelyn McNeil 350
Functional studies and surface receptor characteristics of isolated epithelioid cells from experimental granulomas, by G. T. Williams 350
Human fetal lung hypoplasia: time of onset and nature of the abnormality, by J. S. Wigglesworth and R. Desai . 351
Neuron specific enolase as a useful histochemical marker for the neuroendocrine system of the lung, by G. A. Cole, Julia M. Polak, J. Wharton, P. Marangos and A. G. E. Pearse . . 351
Pulmonary endothelial pavement patterns, by P. Smith, G. Kibria, A. Kombe, D. Heath and R. Biggar . . 352
Reactive mesothelial proliferation, by C. S. Sheldon, Amanda Herbert and P. J. Gallagher 352
The effect of β-aminopropionitrile on the systolic blood pressure and static elastic properties of the rat aorta, by C. L. Berry and S. E. Greenwald . . 353
Oncocytic cysts of the trachea and larynx, by D. Maharaj, G. D. Smith and B. F. Boyce 354

PAGE

Endocrine cell dynamics in starvation, by A. M. J. Buchan, J. R. Dryburgh and J. M. Polak 354
Congenital thyroid abnormalities and the ultimobranchial gland in man, by E. D. Williams 355
A case of "Hashimoto's" parathyroiditis, by V. R. Doherty and B. F. Boyce 355
The ACTH cells of the pituitary in Cushing's syndrome, by Anne M. McNicol 355
Unstable mutations—a possible cause of the organ-specific autoimmune diseases and the multiple endocrine adenomapeptic ulcer syndrome, by B. F. Boyce, Anne M. McNicol, Heather M. Dick and R. B. Goudie 356
Genetic control of pigmentation patterns in man, by R. B. Goudie, R. P. O'Hare and M. A. Ferguson-Smith . . . 356
Phase contrast microscopy studies on the human placenta, by Jean M. Scott and M. M. Mackay 357
Broadening of the basement membrane and the renal tubules, by A. C. Lendrum and J. Dobson 357
Renal fibronectin, by A. J. Dixon, J. Burns, M. S. Dunnill and J. O'D. McGee 358
Human bite marks—recognition and interpretation, by D. Gordon Macdonald 358
Enzyme degradation of rat articular cartilage: a mechanical and scanning electron microscopic study, by P. O'Connor, C. Bland, J. D. Brereton and D. L. Gardner 358
Electron microscopy of hypomelanotic macules in tuberous sclerosis, by D. J. Ruiter, S. G. van Duinen, B. J. Mauw, N. J. Dijkshoorn, A. C. B. Peters, W. A. van Vloten and E. Scheffer . 359
Quantitation of *in-vitro* myelinotoxicity test, by K. Bradbury, S. Aparicio and C. C. Bird 360
Gliotoxicity of demyelinating sera, by P. M. Sagar and K. Bradbury . . 360
Is the adenolymphoma merely a localized area of overproduction of salivary IgA?, by I. Brown and B. Lennox . 360
Statistical assessment of the cancer risk in Crohn's disease by H. Thompson and J. C. Macartney 361
Morphology of glucocorticoid-induced cell death in human lymphoid cells, by R. W. Blewitt and C. C. Bird . . 361
Acriflavine–Feulgen–Nile Blue staining: a trimodal excitation luminescent method for diagnostic cytology, by A. de Lemos Bastos and J. D. Vivario . 361

PAGE

The nature of immunoglobulin-containing cells in malignant lymphomas of follicle centre cell origin, by P. Isaacson, D. H. Wright, Mary A. Judd and D. B. Jones 362

Distribution of HLA in normal and malignant tissue, by K. A. Fleming, J. Woods, A. McMichael and J. O'D. McGee 362

An investigation into the nature of amyloid in the calcifying epithelial odontogenic tumour, by C. D. Franklin, M. V. Martin and A. Clark 363

Do human breast cancers reside in normal or abnormal mammary tissue? A study of the age-frequency distribution of epitheliosis in cancer mastectomies, by H. W. Simpson and F. Mutch . . 363

Serum inhibitory factor in lepromatous leprosy: its effect on the pre-S-phase cell-cycle kinetics of mitogen-stimulated normal human lymphocytes, by M. M. Sherif, A. J. Robertson, R. C. Potts, J. H. Gibbs, R. A. Brown and J. Swanson Beck . . 364

Anaerobic meningitis with cavernous sinus thrombosis, by B. I. Duerden, J. G. Yassa and L. S. Taitz . . . 365

TEETH, traumatised in the rat: altered vascular permeability in the dental pulp 181

THYROID, clinical and pathological study of hypothyroid myopathy . . . 35

TISSUE CULTURE, diphosphonates inhibit bone resorption by macrophages *in vitro* 255

PAGE

mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue: studies employing bovine aortic endothelial cells *in vitro* . . . 207

mechanism of the induction of angiogenesis by human neoplastic lymphoid tissue: studies on the chorioallantoic membrane (CAM) of the chick embryo 191

techniques for investigating the origin, nature and behaviour of mesothelial cells 263

TOBACCO, effect of indomethacin on the response of bronchial epithelium to smoke 1

TOXOPLASMA GONDII, ultrastructural effects of sex hormones and infection on lymph node post-capillary venules . 121

TUBERCULOPROTEIN, accumulation of T cells and local anti-PPD antibody production in lymphokine-mediated chronic peritoneal inflammation in the guinea pig 23

TUMOUR, ANIMAL, INDIVIDUAL, invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma . 287

TUMOUR, HUMAN, INDIVIDUAL, primary rhabdomyosarcoma of the cerebellum . 235

VENULES, POST CAPILLARY, lymph node: ultrastructural effects of sex hormones and infection 121

WALDENSTRÖM'S MACROGLOBULINAEMIA, immunohistochemical staining of the Dutcher–Fahey intranuclear inclusion body in a case of 81

INDEX OF AUTHORS

PAGE

ALI, H. H. and HASLETON, P. S., the parathyroid in chronic renal failure—a light and electron microscopical study . 307

ARAUJO, NEY, S., ARAUJO, VERA C. and MARIANO, M., altered vascular permeability on the dental pulp of traumatised rat teeth 181

ARAUJO, VERA C., ARAUJO, NEY S. and MARIANO, M., altered vascular permeability in the dental pulp of traumatised rat reeth 181

AVERBACK, P., histopathology of acute cell loss in Huntington's chorea brain . 55

AYERS, M., GREIG, N. and JEFFERY, P. K., the effect of indomethacin on the response of bronchial epithelium to tobacco smoke 1

BALLARD, R., BOWERS, R. R., HOUSTON, F., CLINTON, R. and LEWIS, M., a histological study of the carrageenan-induced granuloma in the rat lung . . 243

BARRIE, H. J., hypertrophy and laminar calcification of cartilage in loose bodies as probable evidence of an ossification abnormality 161

BERG, W. B. VAN DEN, MAARSSEVEEN, A. C. M. TH. VAN, MULLINK, H. and SCHEPER, R. J., accumulation of T cells and local anti-PPD antibody production in lymphokine-mediated chronic peritoneal inflammation in the guinea pig 23

BETTS, K., CARR, JEAN, CARR, I. and DREHER, BARBARA, lymphatic metastasis: invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma 287

BHATIA, R., ROY, S. and NANDA, N. R., primary rhabdomyosarcoma of the cerebellum 235

BIRD, R. G. and SMITH, M. D., cryptosporidiosis in man: parasite life cycle and fine structural pathology . . 217

BLAND, CHRISTINE, O'CONNOR, PATRICIA and GARDNER, D. L., fine structure of artificial splits in femoral condylar cartilage of the rat: a scanning electron microscopic study . . . 169

BOWERS, R. R., HOUSTON, F., CLINTON, R., LEWIS, M. and BALLARD, R., a histological study of the carrageenan-induced granuloma in the rat lung . 243

BOYD, JAMES F., immunohistochemical staining of the Dutcher–Fahey intranuclear inclusion body in a case of Waldenström's macroglobulinaemia . 81

CARR, I., CARR, JEAN, DREHER, BARBARA and BETTS, K., lymphatic metastasis: invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma 287

CARR, I., CARR, J., TREW, J. A., LOBO, A. and CHATTOPADHYAY, P. K., lysozyme production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105

CARR, JEAN, CARR, I., DREHER, BARBARA and BETTS, K., lymphatic metastasis: invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma 287

CARR, J., CARR, I., TREW, J. A., LOBO, A. and CHATTOPADHYAY, P. K., lysozome production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105

CHAMBERS, T. J., diphosphonates inhibit bone resorption by macrophages *in vitro* 255

CHATTOPADHYAY, P. K., CARR, I., CARR, J., TREW, J. A. and LOBO, A., lysozyme production by a granuloma *in vivo*: output in blood and lymph in relation to ultrastructure and immunochemistry 105

CLINTON, R., BOWERS, R. R., HOUSTON, F., LEWIS, M. and BALLARD, R., a histological study of the carrageenan-induced granuloma in the rat lung . 243

DREHER, BARBARA, CARR, JEAN, CARR, I. and BETTS, K., lymphatic metastasis: invasion of lymphatic vessels and efflux of tumour cells in the afferent popliteal lymph as seen in the Walker rat carcinoma 287
